## ABOUT US

The best ideas start with a solid, stable foundation. That is the essence of our Stability Tables - and it's our commitment to you. All our Tables are manufactured in the most responsible manner, right here in USA.

We took our own business strengths which includes **Direct Control over Raw Materials**, **Agile Manufacturing Capabilities** and decided to build something that will benefit our customers. Our direct control over the raw materials like decorative laminates and substrates allow us to deliver **Top Quality Products** and **pass the savings** on to our customers.

### LEADERSHIP:

Our Senior Management brings over **60 years** of Manufacturing experience backed with a successful track record. We know the industry, the expectations, and what it takes to be successful. **Short lead times and meeting deadlines don't bother us at all.**

Stability Tables were born out of the idea that something built really well, with smarter, stronger materials will help you engage, collaborate, and show up for your life when you need to. We believe that everything starts with a strong table and goes from there. Stability Tables are a launch pad for your life.

### SUSTAINABILITY:

Stability Tables are conscientiously made products. We manufacture our tables using more sustainable materials whenever we can and are committed to safe, sustainable manufacturing practices. We recognize and embrace our responsibility to safeguard human health, preserve natural resources and protect the environment through sustainable furniture design.

We know Forests are still under threat around the world, which is why our partner American Forests will plant **One Tree for Every Stability Table We Sell**. Best of all, our customers can use the American Forests Logo on their tables for free. It is a great way to support our Planet and to know that Stability Tables are backed by one of the Oldest Conservation Organizations in the country.

All of our products meet the **BIFMA** standards for strength and durability. We are proud of using **FSC**, **CARB II** and **Greenguard Certified** products. We know that practicing good environmental stewardship and strict safety compliance is the only way to build products – and we make sure they don't cost you more.

Our Promise: 1 Table Sold = 1 Tree Planted

## STABILITY TABLES ARE IN USE AT THESE ICONIC BRANDS

**OUR CONVERTIBLE BENCH TABLES ARE DESIGNED WITH SAFETY, QUALITY AND CONVENIENCE IN MIND. THESE TABLES MAKE CLEAN UP AND STORAGE A BREEZE.**

# CONVERTIBLE BENCH TABLES

## TABLE FRAME

The table frame is reinforced with heavy-duty rectangular steel tubes.

## TOP & BENCH

Premium High Pressure Laminate, 3/4" particle board substrate, along with a phenolic backer sheet provide a balanced and durable panel that eliminates warping.

## CASTERS

3" swivel casters with secure locking brakes keep tables from moving when engaged. Casters are non-marring, durable. Made in the USA.

## GLIDE CAPS

Rubber glide caps with steel washer to protect the floor from marring. Made in the USA.

## TABLE LEGS

Square steel tubes add structural strength and durability.

## COUPLING DEVICE

Specially engineered latch securely fastens two tables together in the Cafeteria Position.

## BOTTOM TUBES

Heavy Duty square steel tubes are chrome plated for durability.

Our Promise: 1 Table Sold = 1 Tree Planted

## SPECIFICATIONS

- Premium High Pressure Laminate Tops
  - T-mold Edge and 3/4" particle board standard
  - Tuff Edge & 3/4" Plywood upgrades available
- Powder coated under structure
- Chrome Plated Bottom tube standard for scratch resistance
- Leg -14 GA x 1.25" square tubes
- Table Frame -Rectangular Tube frame construction - 1" x 2"
- 3"x1" swivel casters with Polyolefin wheel - MADE IN USA
- Heavy Duty glides with steel washer - MADE IN USA
- Easy-to-use coupling device for Cafeteria Position standard
- Space-saving table nesting reduces storage foot print
- Handicap Accessible
- UL Listing pending
- Anti-microbial laminate available
- **15-year Structural Frame Warranty**
- **MADE IN USA** (with some imported components)

## SAFETY FEATURES

No trip points in Table Position.  
No Pinch Points in Bench Position.

# RECTANGULAR STOOL TABLES

MOBILE TABLES WITH BUILT-IN-SEATING  
DESIGNED FOR SAFETY, CONVENIENCE  
AND FLEXIBILITY.

3

## STOOLS

High-impact ABS stools are reinforced with steel washers and secured with specially designed hardware to make them exceptionally durable. **MADE IN THE USA.**

## TOPS

Premium High Pressure Laminate, 5/8" particle board substrate, along with a phenolic backer sheet provide a balanced and durable panel that resists warping.

## TRANSIT LOCK

The transit locks are equipped with a quick release handle which can be operated from either side when the table is in the storage position. The locking mechanism makes it safe and easy for one person to position the table as needed.

## CENTER CLEARANCE

Tables are engineered with high precision gap in between the tables to avoid any pinch points during table operation.

## CASTERS

Tough 4" swivel Casters with double ball bearings for easy movement. Casters are non-marring, durable. **MADE IN THE USA.**

## TORSION BARS

Torsion bars make opening and closing the table a breeze. The table will glide into place safely with just one person.

## TABLE FRAME

Box-Frame construction with heavy-duty C-channel steel for added structural stability.

## TABLE LEGS

The table legs are constructed of heavy-duty steel tubes for added structural strength.

## GLIDE CAPS

Rubber glide caps with steel washer to protect the floor from marring. **MADE IN THE USA.**
